

HEALTH PROFESSIONALS AND
TOGETHER WE GROW
THE SYNERGY OF CARE

- Every child can benefit from state-of-the art care and nurturing
- Every parent needs a respite once in a while
- Medically fragile children develop their potential best when in contact with typical children in an inclusive environment
- Technology can have a transforming impact on the growth of a medically fragile child

- Children develop to their full potential
- Parents have more quality time with their children
- You have total peace of mind knowing your referral made a difference in your patient's life

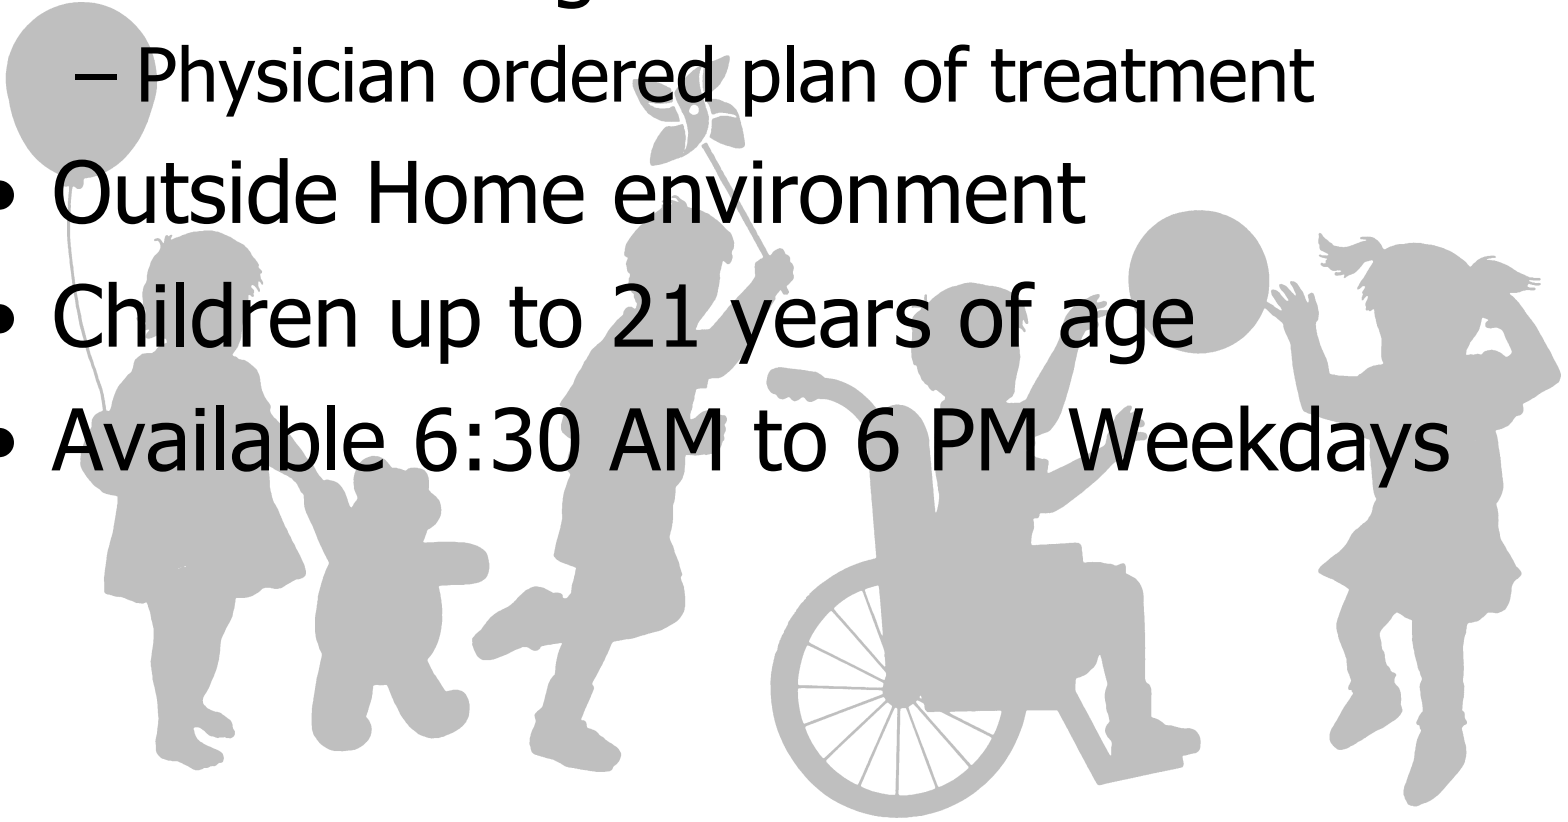

- “My son is difficult behavior-wise along with his medical problems. At one time it was suggested to me he live in a group home and thanks to Together We Grow, that won't need to happen. Together We Grow is a real blessing to me, and to my son”.
 - Andrea Krause
- “My son has become more outgoing and wants/needs to be with children his age. He eats by mouth and will get his teeth brushed because of the Together We Grow staff”.
 - Patrick Debon
- “Cory has been so happy at Together We Grow. He started when he was an infant and since then he has flourished. He loves the nurses, the outside playtime is his favorite, he has many friends, and respite is just wonderful - He looks forward to his special weekends and it gives us parents a break.
 - Stacy Gibson
