***Together We Grow* Opens State-of-the-Art Facility to Benefit San Diego's Medically Fragile Children and Their Parents**

SAN DIEGO – *Together We Grow*, the recognized leader in pediatric care, today announced the opening of a new 10,000-square-foot facility in San Diego to provide an enhanced nurturing environment and outstanding care for medically fragile and typical children and their parents. *Together We Grow* is also launching its new website at <http://www.togetherwegrow.net>, an online destination for health professionals and parents to learn more about medically fragile children.

"We created *Together We Grow* in 1988 with the belief that medically fragile children deserve access to the same care and nurturing that typical children do. They should not be penalized for being unique," said Terry Racciato, founder and CEO of *Together We Grow*. "This new facility allows us to better serve families throughout the community with the care and results for which we are known."

The new facility is located at 5055 Viewridge Ave and features state-of-the-art technology and the latest medical equipment in a pre-school environment. In addition, the building itself is an integral part of the overall experience. With a unique castle-like exterior complete with moat, the building features two massive 25-foot murals of a dragon and a unicorn by local acclaimed artist Grace Ann Piano. In the interior, each themed room is based on a different storybook and linked by a yellow-brick road.

About Together We Grow

Together We Grow is the recognized leader in pediatric care, the place where medically fragile and typical children grow together in an inclusive environment. In a developmentally appropriate setting, these children play and learn together, focusing on fun and learning activities. With two facilities in San Diego County, *Together We Grow* is the largest pediatric day health care center in California. More information can be found at <http://www.togetherwegrow.net>
